Cumulative Contents

Information for Contributors *vii*

Regular Section

Regular Papers

Deletion of C-terminal 113 amino acids impairs processing and internalization of human insulin receptor: comparison of receptors expressed in CHO and NIH-3T3 cells
R. Levy-Toledano, D. Accili and S.I. Taylor (USA) 1

Topology of catalase assembly in human skin fibroblasts
E. Middelkoop, E.A.C. Wiemer, D.E.T. Schoenmaker, A. Strijland and J.M. Tager (Netherlands) 15

Nucleoside-triphosphate binding of the two cytosolic components of the respiratory burst oxidase system: evidence for its inhibition by the 2′,3′-dialdehyde derivative of NADPH and desensitization in their translocated states
H. Mizunari, K. Kakinuma, K. Suzuki, H. Namiki, T. Kuratsuji and S. Tsunawaki (Japan) 21

cAMP-induced changes of intracellular free Mg^{2+} levels in human erythrocytes
T. Matsuura, Y. Kanayama, T. Inoue, T. Takeda and I. Morishima (Japan) 31

Ca^{2+} entry pathways activated by the tumor promoter thapsigargin in human platelets
Y. Hashimoto, T. Watanabe, M. Kinoshita, K. Tsukamoto, M. Togo, Y. Horie, Y. Matsuda and K. Kurokawa (Japan) 37

Subsection

Regular Papers

Activation of phospholipase D in CHO cells transfected with the human epidermal growth factor (EGF) receptor: differential effects of protein kinase C activation and EGF
M. Dunlop and S. Clark (Australia) 43

Characterization of the α_1-adrenoceptor-mediated responses in perfused rat liver
E. Urcelay, N. Butta, M.J. Arias-Salgado, M.S. Ayuso and R. Parrilla (Spain) 49

Involvement of protein kinase C in the interleukin 1α-induced gene expression of matrix metalloproteinases and tissue inhibitor-1 of metalloproteinases (TIMP-1) in human uterine cervical fibroblasts
S. Takahashi, T. Sato, A. Ito, Y. Ojima, T. Hosono, H. Nagase and Y. Mori (Japan, USA) 57

Reduced sodium pump activity in inositol-deficient HL-60 cells: no evidence of control by protein kinase C
J. Allard, D.P.W. Lennon, M.R. Greenwood, A.J. Buckenham and J.N. Hawthorne (UK, France) 66

H7-resistant protein kinase C substrates in two-dimensional gels of proestrous rat anterior pituitary gland
J. Simpson, M.S. Johnson and R. Mitchell (UK) 69

Regulation of agonist binding to A_{2A} adenosine receptors: effects of guanine nucleotides (GDP[S] and GTP[S]) and Mg^{2+} ion
M.R. Mazzoni, C. Martini and A. Lucacchini (Italy) 76

Hydrodynamic characterization and DNA-binding properties of the liganded and unliganded forms of the retinoic-acid receptor α from human HL-60 cells
B. Sablonniere, N. Dallery, P.-M. Danze, P. Hublau, P. Formstecher and M. Dautrevaux (France) 85

Class I major histocompatibility complex antigens are not associated with the LH/CG receptor on ovine luteal cells
N. Kenny, N.A. Rahman, B.G. Barisas and D.A. Roess (USA) 94

Regular Section

Regular Papers

Ca^{2+} entry through L-type voltage-sensitive Ca^{2+} channels stimulates the release of human chorionic gonadotrophin and placental lactogen by placental explants
S. Meuris, B. Polliotti, C. Robyn and P. Lebrun (Belgium) 101

Isolation and characterization of a growth inhibitory factor from hamster liver
C. Hashimoto, M. Ayaki and Y. Inui (Japan) 107

In vitro evidence for involvement of CoA thioesters in peroxisome proliferation and hypolipidaemia
K.E. Tomaszewski and R.L. Melnick (USA) 118

Effect of progesterone on hydrophobic cell-associated proteoglycans bound to cholesterol sulfate in glandular epithelial cells of guinea-pig endometrium
M. Nicollier, L. Beck, A. Mahfoudi, V. Coosemans and G.L. Adessi (France) 125

Different development of apical and basolateral Na-H exchangers in LLC-PK_1 renal epithelial cells: characterization by inhibitors and antisense oligonucleotide
M. Kuwahara, S. Sasaki, S. Uchida, E.J. Cragoe Jr. and F. Marumo (Japan, USA) 132

Regulatory volume decrease of cultured human fibroblasts involves changes in intracellular amino-acid pool
V. Dall'Asta, P.A. Rossi, O. Bussolati and G.C. Gazzola (Italy) 139

Subsection

Minireview

Molecular mechanisms in the control of translation by hormones and growth factors
N.T. Redpath and C.G. Proud (UK) 147

Regular Papers

In vitro activation of brain protein kinase C by the cannabinoids
C.J. Hillard and J.A. Auchampach (USA) 163

Stimulation of arachidonic-acid release from Swiss 3T3 cells by recombinant basic fibroblast growth factor: independence from phosphoinositide turnover
K. Virdee, B.L. Brown and P.R.M. Dobson (UK) 171

Effects of two neuronal antidiuretic molecules, neuroparsin and 5-hydroxytryptamine, on cytosolic free calcium monitored with indo-1 in epithelial and muscular cells of the African locust rectum
B. Fournier, N. Guérineau, P. Mollard and J. Girardie (France) 181

Identification of an alternative form of the *Drosophila* Ca^{2+}/calmodulin-dependent protein kinase II that is maternally derived
Y. Takamatsu, S. Ohsako, Y. Nishida and T. Yamauchi (Japan) 188

Expression and secretion of parathyroid hormone-related protein by a human cancer cell line
J.F. Emly, S. Hughes, E. Green and W.A. Ratcliffe (UK) 193

Effect of inhibition of microsomal Ca^{2+}-ATPase on cytoplasmic calcium and enzyme secretion in pancreatic acini
D.C. Metz, T.K. Pradhan, J.E. Mrozinski Jr., R.T. Jensen, R.J. Turner, R.J. Patto and J.D. Gardner (USA) 199

Rapid Report

Nucleotide sequences of two newt (*Notophthalmus viridescens*) fibroblast growth factor receptor-2 variants
M.L. Poulin and I.-M. Chiu (USA) 209

Short Sequence-Papers

Three genes for protein phosphatase 1 map to different human chromosomes: sequence, expression and gene localisation of protein serine/threonine phosphatase 1 beta (PPP1CB)
H.M. Barker, N.D. Brewis, A.J. Street, N.K. Spurr and P.T.W. Cohen (UK) 212

Isolation and sequence of a full length cDNA encoding a novel rat inositol 1,4,5-trisphosphate 3-kinase
S. Thomas, B. Brake, J.P. Luzio, K. Stanley and G. Banting (UK, Germany, Australia) 219

Molecular cloning and sequencing of a carp cDNA encoding mitogen-activated protein kinase kinase
C.-J. Huang, M.-S. Lee, G.-D. Chang, F.-L. Huang and T.-B. Lo (ROC) 223

Errata 227

Regular Section

Regular Papers

Carrier-protein-mediated enhancement of fatty-acid binding and internalization in human T-lymphocytes
J. Uriel, J.-M. Torres and A. Anel (France, Spain) 231

Carbachol stimulates Cl^- secretion via activation of two distinct apical Cl^- pathways in cultured human T_{84} intestinal epithelial monolayers
G.T.A. McEwan, B.H. Hirst and N.L. Simmons (UK) 241

Thapsigargin-induced $[Ca^{2+}]_i$ increase activates sodium influx in human platelets
M. Tepel, H. Wischniowski and W. Zidek (Germany) 248

The requirement of p47 phosphorylation for activation of NADPH oxidase by opsonized zymosan in human neutrophils
R. Levy, R. Dana, T.L. Leto and H.L. Malech (Israel, USA) 253

Elevated NADPH-oxidase activity in neutrophils from bile-duct-ligated rats: changes in the kinetic parameters and in the oxidase cytosolic factor p47
R. Levy, O. Nagauker, E. Sikuler, T.L. Leto and F. Schlaeffer (Israel, USA) 261

Irradiation of bovine aortic endothelial cells enhances the synthesis and secretion of sulphated glycosaminoglycans
D.A. Pye, S. Kumar, M.J. Wang and R.D. Hunter (UK) 266

Effects of high and low pH on Ca_i^{2+} and on cell injury evoked by anoxia in perfused rat hepatocytes
A. Gasbarrini, P. Caraceni, H. Farghali, D.H. Van Thiel and A.B. Borle (USA) 277

A role for oxygen radicals in rat monocytic leukemia cell differentiation under stimulation with platelet-activating factor
J. Nishihira, T. Ishibashi, N. Takeichi, W. Sakamoto and M. Nakamura (Japan) 286

Partial purification and characterization of 'injurin-like' factor which stimulates production of hepatocyte growth factor
H. Okazaki, K. Matsumoto and T. Nakamura (Japan) 291

Participation of glycosylated residues in the human sperm acrosome reaction: possible role of *N*-acetylglucosaminidase
A. Brandelli, P.V. Miranda and J.G. Tezon (Argentina) 299

The effect of arachidonic acid on the hydroosmotic action of vasopressin in frog urinary bladder
D.L. Firsov and R.G. Parnova (Russia) 305

Rapid Report

K^+ ionophores inhibit nerve growth factor-induced neuronal differentiation in rat adrenal pheochromocytoma PC12 cells
H. Harada, M. Morita and Y. Suketa (Japan) 310

Subsection

Regular Papers

Lipocortin I is not accessible for protein kinase C bound to the cytoplasmic surface of the plasma membrane in streptolysin-O-permeabilized pig granulocytes
G. Farkas, L. Buday, P. Csermely and A. Faragó (Hungary) 315

Formation of endogenous free sphingoid bases in cells induced by changing medium conditions
Y. Lavie, J.K. Blusztajn and M. Liscovitch (Israel, USA) 323

Short Sequence-Papers

cDNA cloning and sequence analysis of the bovine adrenocorticotropic hormone (ACTH) receptor
M. Raikhinstein, M. Zohar and I. Hanukoglu (Israel) 329

Sequence of the 3′-noncoding region of the luteinizing hormone receptor gene and identification of two polyadenylation domains that generate the major mRNA forms
Z.-Z. Hu, E. Buczko, L. Zhuang and M.L. Dufau (USA) 333
